SKILLS

PROGRAMMING

- ReactJs • NodeJs
- MongoDB • ExpressJs
- VueJs • Javascript
- Tailwind CSS • PHP
- Laravel • Docker • Linux
- Android • MySQL • Git

ACTIVITIES

- Active participant in open source projects, contributing to various repositories and collaborating with developers worldwide.
- Successfully participated in multiple hackathons during college, achieving notable results and recognition for innovative solutions.

EXPERIENCE

Eucaps| SOFTWARE DEVELOPER

Aug 2022 - Present |Sweden, Remote

- Developed web application s using React.js,Vue.js, Node.js, and MongoDB, Laravel
- Collaborate with cross-functional teams to design and implement user-friendly interfaces and seamless functionality.
- Adapt to new technologies and industry trends to enhance development processes and optimize application performance.

PROJECTS

• ID-Generator (React And Firebase) | [Demo](#)

Jan 2022 – Feb 2022

I developed a solo project using React and Firebase. This project addressed a college utility problem assigned to me, involving the conversion of students' data into ID cards.

• Blogging App (Mern) | [Demo](#)

May 2022 – June 2022

I developed a solo project that featured an API with JWT authentication. I worked on multiple schemas and relations, implemented state management, and developed the user interface using Tailwind CSS. USED JWT, MERN STACK, TAILWIND CSS

• Online Voting System (Mern & Firebase) | [Demo](#)

May 2022 – June 2022

A solo project featuring an API protected with OAuth. The user interface (UI) designed and developed using Tailwind CSS. This project serves as a voting system, enabling users to create and participate in voting events. USED OAUTH, MERN STACK , TAILWIND CSS

• E-commerce (Mern) | [Demo](#)

June 2022 – Aug 2022

I developed a solo project using React and Firebase. This project addressed a college utility problem assigned to me, involving the conversion of students' data into ID cards. USED JWT AUTH, MERN ,TAILWIND CSS
